What is CERT? The Community Emergency Response Team (CERT) program trains people to be better prepared to respond to emergency situations in their communities. When emergencies happen, CERT members can give critical support to first responders, provide immediate assistance to victims and organize spontaneous volunteers at a disaster site. CERT members can also help with non-emergency projects that help improve the safety of the community.

Who can become a CERT Member? Almost any resident can become a CERT member, regardless of age or physical ability. In Clinton County there are a few qualifications to become a member: individuals must be at least 16 years of age (if under 18 parental consent required), individuals must submit to a background check, and individuals must attend all basic training classes. You do not need to be a Clinton County or State of Iowa resident to be eligible to attend this class.
