**PRESS RELEASE**

**Clinton County Engineer Todd Kinney installed as  
2019-2020 Secretary-Treasurer of the  
National Association of County Engineers**

Washington, D.C. – Clinton County, Iowa, Engineer Todd Kinney was installed as 2019-2020 Secretary-Treasurer of the National Association of County Engineers (NACE) at its recent annual meeting and technical conference. Kinney’s term will run through April of 2020.

NACE is a nonprofit, nonpartisan professional association in its 62<sup>nd</sup> year, representing more than 2,400 county road officials and related professionals in the U.S. and Canada.

“I am honored to serve the nation’s county road professionals,” said Kinney. “I look forward to working with my colleagues across the country as we engage Congress and the administration to ensure county transportation infrastructure is addressed within federal policy. Our national economy depends on a sound and safe infrastructure network, with counties owning and operating more miles than any other government entity.”

Kinney has served as Clinton County Engineer since 2001. He was recognized as the 2015 Rural County Engineer of the Year by NACE. Kinney has chaired the NACE Pavement Preservation Committee since 2014 and served as a Regional Vice-President of NACE’s South Central Region since from 2017 until assuming his new role.

In the U.S., local roads account for about 75% of highways and roads, or 2.93 million miles. Counties manage 1.74 million miles of those roads. Counties also own 231,000 bridges and operate one-third of the nation’s transit systems.
