DEPARTMENT HEADS, ELECTED OFFICIALS AND EMPLOYEES

Auditor David Troester reported that the Election Administrator position has been filled, with the new employee expected to begin during the week of August 10, pending completion of pre-employment requirements and office preparations. He noted that procedures and systems are being put in place to ensure a smooth transition.

The Board highlighted accomplishments over the past year, including the adoption of the County's commercial wind energy ordinance and the data center ordinance. Supervisors discussed the significant amount of work required to develop both ordinances and emphasized that, under current Iowa law, zoning decisions of this nature are made by locally elected officials rather than through public referendum. Board members encouraged citizens to work with state legislators if they wish to pursue legislative changes regarding those processes.

Representative Tom Determann updated the Board on legislation establishing funding for railroad overpass and underpass projects through the Railroad Revolving Fund, noting that approximately \$5 million annually has been dedicated for five years to assist local governments with these projects. He also discussed continued efforts to advance legislation creating a Port Authority, indicating that future legislation may begin with a more limited approach focused on the local area.

Communications Director Jeff Chapman reported on the progress made during his first 14 months as director. He highlighted organizational improvements, creation of a comprehensive communications asset inventory, improved financial oversight, staffing and scheduling initiatives, implementation of a One Call Air Ambulance protocol, employee development efforts, and continued work toward restoring full staffing. He also recognized the lasting impact of Communications employee Marcia DeBoer and thanked staff for their professionalism and dedication during a challenging year. Board members commended the department for the significant improvements made under his leadership.

Emergency Management Director Zach Jirak reported that the County successfully completed its federally evaluated Radiological Emergency Preparedness Exercise involving local, state, and federal partners. He also discussed ongoing disaster preparedness presentations, active shooter response training conducted with law enforcement agencies, storm damage assessment responsibilities, weather monitoring support for community events, and efforts to update emergency shelter supplies throughout the county to improve disaster readiness.

DISCUSSIONS WITH POSSIBLE ACTION

Speed Limit Change: County Engineer Todd Kinney presented information regarding Iowa's statutory increase in rural paved road speed limits from 55 mph to 60 mph, effective July 1, 2026.

Dust Control: Todd Kinney discussed fugitive dust associated with quarry operations and maintenance hauling activities. Current Iowa DNR guidance distinguishes maintenance hauling from construction activities. The Board

discussed current policy and indicated the matter should be revisited during future budget discussions. No policy changes were made.

Secondary Roads Update: Engineer Todd Kinney reported on various department activities, including roadside spraying. Gravel road maintenance. Rock Creek Solar and Hawkeye Solar road maintenance agreements. Pavement preservation projects. Bridge construction and replacement projects. Receipt of approximately \$3.8 million in federal bridge funding for the Highway 30 overflow bridge replacement. Staffing challenges within the Secondary Roads Department.

Treasurer Update: Treasurer Dustin Johnson reported that The County remains in a strong financial position. Progress on implementation of the Iowa DOT MVP 360 modernization project. Preparation for annual property tax billing.

Sheriff Update: Sheriff Bill Greenwalt provided an overview of significant organizational changes within the Sheriff's Office over the past several months, including promotions and leadership restructuring within the Patrol and Investigations Divisions. He recognized the dedication of deputies, investigators, and command staff who provide law enforcement services around the clock and highlighted the continued commitment to maintaining a strong School Resource Officer program. Sheriff Greenwalt noted that investigators continue to work closely with local, state, and federal partners while conducting criminal investigations, serving search warrants, participating in community outreach, and expanding educational programs for area students.

Investigations Division: Lieutenant Matt Owens, Investigations, reported on recent staffing changes within the Investigations Division, including the assignment of additional deputies to meet increasing investigative demands. He highlighted the division's continued collaboration with local, state, and federal law enforcement partners, including the DEA and ATF, and discussed the department's educational outreach efforts in local schools.

Patrol Division: Lieutenant Schrader, Patrol, outlined his vision for strengthening community policing throughout Clinton County. He stated that patrol deputies will place greater emphasis on engaging with residents by making personal contact during routine patrols, listening to neighborhood concerns, and working collaboratively to improve public safety and quality of life.

Conservation: Conservation Director Phil Visser provided an overview of the department's activities over the past year. He highlighted the success of annual programs, including Winter Fun Day, Spring Fling, and Easter Egg Hunt, as well as Blue Heron Eco Cruises held throughout the summer, along with numerous educational and recreational programs offered by the department.
